A wonderful traditional Ibicencan finca, full of character

Nestled into the countryside near to Sant Miguel this is a charming old traditional Ibicencan finca. Inside it is dominated by wooden beams and windows with white stone walls, all very snug and cosy. Outside you are surrounded by mature gardens with lovely chill out areas nestling against the lush vegetation. The pool is no exception as it also merges into the garden with lovely trees and shaped sun terraces, one of which is raised. If you are looking for a charming, comfortable, traditional hide away then this is the villa for you.
